PUBLIC STORM SEWER APPLICATION\$100

¹ This fee would be waived if, during the troubleshooting call, it is ascertained the problem is not the responsibility of the property owner.

² An "other" service call is something other than what is covered in another category (i.e. meter reading) except as indicated in footnote #7 below.

³ Time is calculated to be the current average regular hourly rate of all union employees in the water and wastewater depts.

⁴ Time is calculated to be the current average overtime, weekend or holiday rate, as applicable, of all union employees in the water and wastewater depts.

⁵ This would be charged when the service is at the request of the property owner and done during working hours. If request is during non-working hours, the "troubleshooting or other service all during non-working hours" fee shall apply.
