

# DRINKING WATER WARNING

April 25<sup>th</sup>, 2023

## Randolph Village Water District- WSID 5179

### BOIL YOUR WATER BEFORE USING

Due to the need for system maintenance/repair on South Pleasant St. water main, there is a strong possibility that your drinking water supply may become contaminated on the way to the tap. This situation presents a significant health risk to users of the Randolph Village water system. The Randolph Village Water district is issuing a Boil Water Notice for users in the following areas, All of South Pleasant St., Fairview St., Verona, Edgewood and Pearl St.

#### **What should I do?**

**DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST.** Bring all water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. Boiled or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and food preparation **until further notice**. Boiling kills bacteria and other organisms in the water.

Coliforms are bacteria which are naturally present in the environment and are used as an indicator that other; potentially-harmful, bacteria may be present. When a water system is experiencing fluctuations in water pressure the possibility exists for bacteria and other harmful organisms to enter the water distribution system and contaminate your drinking water supply.

People with severely compromised immune systems, infants, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers. General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at 1 (800) 426-4791.

#### **What happened? What is being done?**

This Boil Water Notice will remain in effect until the water system maintenance/repair is complete and the system is able to demonstrate that the quality and quantity of the drinking water meets State and Federal drinking water standards.

The repair is taking place on April 25<sup>th</sup>, 2023 and if all goes according to plan, the boil water will hopefully be lifted by Friday April, 28<sup>th</sup> 2023.

For more information, please contact Chris Chambers at 802-728-9079.

***Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.***
