### Access Fees

- Water .....\$2.65 per gpd
- Wastewater .....\$5.00 per gpd

### Usage Rates

#### **Water**

- Min. billing (incl. 500 CF) .....\$45
- Usage over 500 CF .....\$7.50 per 100 CF

#### **Wastewater**

- Min. billing (incl. 500 CF) .....\$70
- Usage over 500 CF .....\$12.50 per 100 CF

### Determination of need for add'l allocations \$25

- 
- <sup>1</sup> This fee would be waived if, during the troubleshooting call, it is ascertained the problem is not the responsibility of the property owner.
  - <sup>2</sup> An "other" service call is something other than what is covered in another category (i.e. meter reading) except as indicated in footnote #7 below.
  - <sup>3</sup> A 10% markup on the cost of materials will be added to offset the cost of providing the materials.
  - <sup>4</sup> This fee includes both the closing (shutting off) and opening (turning on) of the curb stop if requested by the customer. For customers whose service is currently turned off and have already incurred a \$25 charge for doing so, a \$25 fee shall be required to turn it back on. The fee to open a curb stop after delinquency is settled is \$25 during working hours and \$37.50 during overtime hours (24 VSA §5151).
  - <sup>5</sup> This would be charged when both services (closing and opening of the curb stop) are able to be completed during working hours. If a customer requests to have either part of this service package done during non-working hours, the fee shall be increased by \$200.

**TOWN OF RANDOLPH FEE SCHEDULE**

Effective February 15, 2019

---

**PUBLIC STORM SEWER APPLICATION** .....\$100
